Explanation of Appropriations for "Other Expenses"

The amounts appropriated under the title of "Other Expenses" are for operating costs other than "Salaries and Wages".

Some of the items included in "Other Expenses" are:

Material, supplies and nonbondable equipment.

Repairs and maintenance of buildings, equipment, roads, etc.

Contractual services for garbage and trash removal, fire hydrant service, aid to volunteer fire companies etc.

Printing and advertising, utility services, insurance and many other items essential to the service rendered by municipal government.

The 1962 Annual Budget proposes increased appropriations for Town Purposes totalling $166,532.50 over the year 1961. $52,598.00 of the above amount will provide for five additional men in the Police Department, as well as permissive pay increments for those municipal employees still within salary ranges. Expanded personnel requirements to implement a duty schedule of 42 hours per week in the Fire Department as of September 1, 1962, further increased the appropriation for Salaries and Wages.

Other Expenses are increased by $52,067.88 to offset higher operating charges for outlet sewers, improved street lighting, increased cost of refuse collection and disposal, an increase in the appropriation to the Free Public Library and a $10,000.00 appropriation to assist in celebrating Bloomfield's 150th Anniversary during 1962.

Deferred Charges and Statutory Expenditures required an increase in appropriations, over 1961, of $71,881.64 and reflect increased pension costs, higher social security payments and old-age exemptions allowed in 1961.

Municipal and School Debt Service decreased by $8.015.00, from $763,348.75 to $755,333.75. Appropriations for Capital Improvements were reduced by $2,000.00.

Offsetting the above increased appropriations is an increase of $59,165.73 in anticipated General Revenues for 1962.

The Reserve for Uncollected Taxes in this Budget is computed at 92.49% and amounts to $660,131.44, a reduction over 1961 of $21,120.47.

The total Net Valuation for 1962 amounts to $131,308,14200. This is $3,028,954.00 less than the Net Valuation for 1961 and was occasioned by the decision to eliminate the assessing and taxing of household personal property.

The amount to be raised by taxation for 1962 is estimated at $8,790,032.61. The estimated Tax Rate for 1962 is $6.69 per $100.00 of assessed value and is broken down as follows:

Purpose	1962	Estimated Tax Rate for 1962
Town	$2,523,516.07	$1.92
School	4,046,802.56	3.08

Explanation of Appropriations for "Other Expenses"

The amounts appropriated under the title of "Other Expenses" are for operating costs other than "Salaries and Wages".

Some of the items included in "Other Expenses" are:

Material, supplies and nonbondable equipment.

Repairs and maintenance of buildings, equipment, roads, etc.

Contractual services for garbage and trash removal, fire hydrant service, aid to volunteer fire companies etc.

Printing and advertising, utility services, insurance and many other items essential to the service rendered by municipal government.

The 1962 Annual Budget proposes increased appropriations for Town Purposes totalling $166,532.50 over the year 1961. $52,598.00 of the above amount will provide for five additional men in the Police Department, as well as permissive pay increments for those municipal employees still within salary ranges. Expanded personnel requirements to implement a duty schedule of 42 hours per week in the Fire Department as of September 1, 1962, further increased the appropriation for Salaries and Wages.

Other Expenses are increased by $52,067.88 to offset higher operating charges for outlet sewers, improved street lighting, increased cost of refuse collection and disposal, an increase in the appropriation to the Free Public Library and a $10,000.00 appropriation to assist in celebrating Bloomfield's 150th Anniversary during 1962.

Deferred Charges and Statutory Expenditures required an increase in appropriations, over 1961, of $71,881.64 and reflect increased pension costs, higher social security payments and old-age exemptions allowed in 1961.

Municipal and School Debt Service decreased by $8.015.00, from $763,348.75 to $755,333.75. Appropriations for Capital Improvements were reduced by $2,000.00.

Offsetting the above increased appropriations is an increase of $59,165.73 in anticipated General Revenues for 1962.

The Reserve for Uncollected Taxes in this Budget is computed at 92.49% and amounts to $660,131.44, a reduction over 1961 of $21,120.47.

The total Net Valuation for 1962 amounts to $131,308,1420(This is $3,028,954.00 less than the Net Valuation for 1961 and was occasioned by the decision to eliminate the assessing and taxing of household personal property.

The amount to be raised by taxation for 1962 is estimated at $8,790,032.61. The estimated Tax Rate for 1962 is $6.69 per $100.00 of assessed value and is broken down as follows:

WHEREAS, under existing law in certain counties having a population of more than 200,000 persons, the members of county park commissions in such counties are appointed by the Superior Court Assignment Judge of the county; and

WHEREAS, since 1895 the power of appointment of county park commissioners in such counties has always been vested in the judiciary, such appointments having been made by the Justice of the Supreme Court presiding in the courts of the particular county under and by virtue of the Laws of 1895, Chapter 91, Section 1, Page 169; and

WHEREAS, over the years, the courts have consistently appointed citizens of outstanding ability and excellent reputation to serve as county park commissioners who have performed their duties well and have exercised independent judgment in the best interests of the public and have thereby won a deserved reputation for honesty, efficiency and freedom from partisonship in patronage and other matters; and

WHEREAS, Assembly Bill No. 86 has been introduced and is presently pending in the Legislature of the State of New Jersey, which Bill affecting Essex, Union, Passaic and Hudson counties would take the appointing power of county park commissioners from the Superior Court Assignment Judges and transfer it to the Board of Chosen Freeholders in the respective counties; and

WHEREAS, it is the considered opinion of the Town Council of the Town of Bloomfield, N.J., that Assembly Bill No. 86 is not in the public interest and that its enactment should be opposed:

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Bloomfield, N.J., that it does hereby forcefully oppose the enactment of Assembly Bill No. 86 for the reasons stated in the preamble of this resolution, and it strongly urges the members of the Senate and General Assembly to vote against the passage of this Bill so that the appointing power of county park commissioners shall be left in the Superior Court Assignment Judges as at present; and

BE IT FURTHER RESOLVED, that certified copies of this resolution shall be forwarded by the Town Clerk to the Governor of the State of New Jersey; to Honorable William Vincent Musto; and Honorable Frederick H. Hauser, Assemblymen from Hudson County, the sponsors of said Assembly Bill No. 86; to all of the State Senators and to all other Members of the General Assembly of the State of New Jersey, which motion was seconded by Mr. Russoman. WHEREAS, the Town Council of the Town of Bloomfield, N.J., realizes that the laws requiring Counties to construct and maintain drawbridges over navigable streams are archaic and outmoded and are no longer either reasonable or practicable in view of the tremendous increase in vehicular and waterborne traffic; and

WHEREAS, the Town Council of the Town of Bloomfield, N.J., recognizes the fact that many of these bridges are old and obsolete structures which are beyond the financial ability of Counties to rebuild to the higher clearance required by the United States Corps of Army Engineers and the demands of present-day traffic; and

WHEREAS, it is the considered opinion of the Town Council of the Town of Bloomfield, N.J., that existing laws should be amended so that the function of constructing and maintaining drawbridges over navigable streams in the State of New Jersey should be placed under the control of the New Jersey State Highway Department; and

WHEREAS, the Town Council of the Town of Bloomfield, N.J., realizes that Essex County alone operates and maintains four drawbridges jointly with Hudson County and one drawbridge jointly with Bergen County and that Essex County's 50% share for the operation and maintenance of the five drawbridges for 1962 will be $265,000.00; that in addition, Capital expenditures will approximate $125,000.00; that the long range financial aspect of reconstruction is appalling; that these bridges are 50 or more years old and when replaced must conform to the 35 foot minimum clearance set by the Federal Government; that this would involve approximately $5,000,000.00 per bridge or $25,000,000.00 for the five bridges, 50% of which, or $12,500,000.00 will be Essex County's share:

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Bloomfield, N.J., that it concurs with the New Jersey Association of County Engineers and that it urges the

New Jersey Association of Chosen Freeholders to request the New Jersey Legislature to effectuate a change in the laws so that the financial responsibility for the construction and maintaining of drawbridges over navigable streams in the State of New Jersey will be transferred to the State Highway Department of New Jersey: and

Explanation of Appropriations for "Other Expenses"

The amounts appropriated under the title of "Other Expenses" are for operating costs other than "Salaries and Wages".

Some of the items included in "Other Expenses" are:

Material, supplies and nonbondable equipment.

Repairs and maintenance of buildings, equipment, roads, etc.

Contractual services for garbage and trash removal, fire hydrant service, aid to volunteer fire companies etc.

Printing and advertising, utility services, insurance and many other items essential to the service rendered by municipal government.

The 1962 Annual Budget proposes increased appropriations for Town Purposes totalling $182,266.38 over the year 1961.

$52,598.00 of the above amount will provide for five additional men in the Police Department, as well as permissive pay increments for those municipal employees still within salary ranges. Expanded personnel requirements to implement a duty schedule of 42 hours per week in the Fire Department as of September 1, 1962, further increased the appropriation for Salaries and Wages.

Other Expenses are increased by $67,801.84 to offset higher operating charges for outlet sewers, improved street lighting, increased cost of refuse collection and disposal, an increase in the appropriation to the Free Public Library and a $10,000.00 appropriation to assist in celebrating Bloomfield's 150th Anniversary during 1962. An appropriation of $21,000.00 to pay a Town Employee's dependent coverage under several group insurance plans for a portion of 1962, is also provided.

Deferred Charges and Statutory Expenditures required an increase in appropriations, over 1961, of $71,881.64 and reflect increased pension costs, higher social security payments and old-age exemptions allowed in 1961.

Municipal and School Debt Service decreased by $8,015.00, from $763,348.75 to $755,333.75. Appropriations for Capital Improvements were reduced by $2,000.00.

Offsetting the above increased appropriations is an increase of $80,165.73 in anticipated General Revenues for 1962.

The Reserve for Uncollected Taxes in this Budget is computed at 92.49% and amounts to $660,131.44, a reduction over 1961 of $21,120.47.

The total Net Valuation for 1962 amounts to $131,308,142.00. This is $3,028,954.00 less than the Net Valuation for 1961 and was occasioned by the decision to eliminate the assessing and taxing of household personal property.

The amount to be raised by taxation for 1962 is estimated at $8,740,032.61. The estimated Tax Rate for 1962 is $6.65 per $100.00 of assessed value and is broken down as follows:

Re: Private Swimming Pool Regulations

Dear Mrs. Jewkes and Gentlemen:

On July 12, 1961 the Planning Board as well as the Building Inspector and the Health Officer of the Town of Bloomfield were asked by the Town Administrator, on behalf of the Council, for written recommendations regarding the regulation of private swimming pools. A draft of the ordinance accompanied the request.

The Board held a public hearing in September on the ordinance as referred to it by the Town Council. A number of citizens appeared and stated their opinions. A transcript of the hearing was made. All the suggestions coming from the hearing and from letters and petitions filed with the

Board were examined and considered. The Board also studied and compared the proposed ordinance with ordinances adopted in other municipalities, particularly those adopted in Clifton, Montclair, Irvington and Union. A second draft of the ordinance was prepared following these studies.

Another public hearing was held on March 13, 1962, after notice and publication in the Independent Press of a new draft of the ordinance. A number of citizens appeared and discussed with the Planning Board the ordinance. A transcript of the hearing was made and reproduced for examination by each member of the Planning Board. The Planning Board, after a discussion at its meeting held April 10, 1962, unanimously recommends to the Town Council of the Town of Bloomfield the following:

(1) The Board recommends no ordinance be adopted regulating portable private swimming pools

(2) The Board recommends that the Zoning Ordinance not be amended to include permanent private swimming pools and that such applications continue to be the subject of a variance application.

Respectfully yours,

After discussion on the subject between the Mayor and Mr. Conte, Mayor Steinmann suggested that the Council consider a resolution at the next conference opposing the reappointment of Mr. Carey.

Mr. Harry Porciello, 735 Bloomfield Avenue, inquired whether the Town Attorney was ever instructed to institute legal proceedings of any kind against the contractors involved in the Passaic Valley matter.

Mayor Steinmann stated that this was not within the province of the municipal officials.

Mr. Joseph Barry, 12 Lewis Street. inquired about the standard operating procedure on purchases by the Town in excess of $2,000.00.

The Town Administrator explained the procedure that is presently being followed.

Mayor Steinmann suggested that by way of illustration the Town Administrator explain the procedure followed in the case of the purchase of automobiles for the Police Department, which is on tonight's agenda.

The Town Administrator explained the procedure followed in that case.

Mr. Barry wanted to know how many informal bids were required.

The Town Administrator stated that usually three bids were obtained.

Mr. Barry commented about the recent purchase by the Town of a Dodge Power Wagon and Mowing Machines.

Mayor Steinmann and the Town Administrator explained the procedure that was followed in those cases and answered Mr. Barry's inquiries.

Mr. John Kuntza, 23 Foster Street, read a letter which he had received respecting a variance on the Colgate Tract and stated that it was disturbing to him and was quite a shock and wanted to know whether any affirmative answer was given to the prospective builder. He stated that he hopes that Bloomfield will not become a Bronxville with high-rise apartments situated in the midst of a strictly residential area.

The Mayor informed Mr. Kuntza that no commitments of any kind had been given to the builder and that the variance application would take its normal course.

Mr. Conte referred to a photograph of the project from which he gave out certain information relating to the structures and remarked that he is not at this time convinced either way.

Mr. Conte suggested that the Town Attorney give an informal opinion on the question of variance versus rezoning

for the Colgate Tract. Mr. Conte pointed out that since it would appear that the whole tract will be used, therefore, it should be a change of zone rather than the subject of a variance.

Referring to the enormous magnitude of the project, Mr. Conte stated that he wanted an opinion from the State Planners. He stated that he needs expert advice.

Mr. Conte also suggested that in the interest of clarity, he would like to show the photograph of the proposed structures to the press.

The Mayor stated that he understood that when the letters were to be sent out to the people in the neighborhood of Broadacres, that a press release was to be issued by the builder to the papers.

Mrs. Jewkes commented that in her opinion it would be a good thing to have all questions answered. She suggested that open public hearings will overcome rumors.

Mr. Conte stated that he wonders whether the Colgate property has been assessed high enough.

Mr. Harry Porciello, 735 Bloomfield Avenue, inquired whether the Mayor and Council will be bound by the opinion from the State Planners respecting this high-rise apartment.

The Mayor stated that such an opinion would not be binding on the Mayor and Council.

Mr. Vincent Fitzgerald, 85 Bellevue Terrace, stated that he agrees with the views expressed by

Mr. Kuntza. He registered his opposition to the proposed structure and raised the question as to whether the change should be by way of variance or rezoning.

The Mayor stated that in his opinion procedure by way of variance is preferable for various reasons.

Leo Associates, Inc., to erect a seven story forty family apartment building, and to provide off-street parking on premises 171 Liberty Street, Bloomfield, N.J., Lot 27 in Block 281 on Map 12 of the Tax Maps of the Town of Bloomfield; and

WHEREAS, the Town Council of the Town of Bloomfield, N.J., has reviewed the record made before the Board of Adjustment (Zoning), including the transcript of the testimony, the

exhibits offered in evidence, the Board's recommendation, and having considered the arguments of the attorneys for the applicant and the attorneys for the objectors, as well as the arguments advanced by objectors not represented by counsel, and having concluded on the basis of said record made before the Board of Adjustment (Zoning), including the transcript of the testimony, the exhibits offered in evidence, the Board's recommendation and the arguments of the attorneys for the applicant and the attorneys for the objectors to said variance, as well as the arguments of those objectors who were not represented by counsel, that said recommendation of the Board of Adjustment (Zoning) contained in its resolution adopted May 10, 1962, should not be approved:

NOW, THEREFORE, BE IT RESOLVED by the Town Council of the Town of Bloomfield, N.J., that said recommendation of the Board of Adjustment (Zoning) set forth in its resolution adopted May 10, 1962 aforesaid be and the same is hereby disapproved for the following reasons:

1 - The erection, construction and operation of a seven (7) story, forty (40) family apartment building with off-street parking on the subject premises, consisting of a plot of land approximately sixty-five (65) feet wide and two hundred seventy (270) feet in depth, located in an R-4A Small Volume Residential Zone, is not compatible with the accepted permissible uses in the R-4A Zone.

2 - The proposed use would overcrowd the land, would produce an undue density and concentration of population, would increase congestion in the streets and would not provide adequate open spaces for light and air.

3 - The maximum allowable lot coverage in said Zone is 25%. The proposed lot coverage is 65.8%, constituting a proposed excess lot coverage of 40.8%, which is considered to be too great.

4 - The maximum allowable floor area ratio is 40%. The proposed floor area ratio is 249%, creating a proposed excess floor area ratio of 209%, which is deemed to be grossly inordinate.

5 - The maximum allowable number of dwelling units in said Zone is two (2). The proposed number of dwelling units is forty (40), which is highly excessive.

6 - The maximum allowable height of a building in an R-4A Zone is thirty-five (35) feet. The height of the proposed structure is sixty-eight (68) feet, which is extremely disproportionate.

7 - The proposed side yard and rear yard clearances are totally inadequate.

8 - The minimum average required dwelling unit area in this Zone is eight hundred (800) square feet. The proposed average dwelling area in the proposed apartment building is six hundred eighteen (618) square feet, which is insufficient.

9 - Provisions for off-street parking and driveway area are too limited and are far below the minimum required by the zoning ordinance.

10 - The granting of this application for the variance sought would substantially change the character of the neighborhood, would be detrimental to the surrounding properties and would depreciate their values.

11 - The relief sought cannot be granted without substantial detriment to the public good and would substantially impair the intent and purpose of the Zone Plan and Zoning Ordinance.

12 - Insufficient special reasons have been shown to warrant the granting of the variance sought.

"October 10, 1962

Mr. H. Joseph North, Town Clerk
Town of Bloomfield
Municipal Building
Bloomfield, New Jersey

Dear Sir:

The veto power that resides in the Office of the Mayor of the Town of Bloomfield I feel should be used with the utmost discretion and only with respect to matters of major importance to the welfare of the community.

Such a matter is now before me. I refer to an ordinance entitled "An Ordinance to Amend Chapter 17.1, Section 1 of the 'Revised Ordinances of the Town of Bloomfield, New Jersey, 1950'" passed by the Bloomfield Town Council by a 4 to 3 vote on second reading at its meeting of October 1, 1962.

This ordinance provides for the addition of two Deputy Chief positions to the present table of organization of the Bloomfield Police Department.

On September 7, 1962, a little over a month ago, the Bloomfield Town Council approved having a professional survey

of the Bloomfield Police Department; therefore, until the recommendations of that survey are known any action changing the organization of the Department is premature and is certainly not consistent with the very reason for having the survey.

In order to justify the addition of the two Deputy Chief positions to the present departmental supervisory personnel, which presently is composed of 6 Captains, 8 Lieutenants, 7 Sergeants and a Chief, it should be demonstrated that this additional supervisory personnel will improve the efficiency of the Department and that increasing the departmental personnel by two Deputy Chiefs will reduce crime rates. This has not been done.

Leading commentators on police administration suggest that a police department should be organized so that its head exercises direct supervision over six or seven divisional commanders. Exactly the case in Bloomfield under the existing police departmental organization.

The cost of creating the two Deputy Chief positions will be $17,000 the first year and thereafter it will increase annually. If all of the Chief of Police's recommendations are implemented (incidentally the creation of the two Deputy Chief positions was only a part of his recommendations), the cost to the people of Bloomfield the first year would be over $57,000 and increase annually thereafter. - An increased cost that has not been justified by a projected increase in the service of the police department to the people of the Town of Bloomfield.

Therefore, I am returning unsigned and am invoking the power of veto vested in me as the Mayor of the Town of Bloomfield with respect to the ordinance passed on October 1, 1962 by the Bloomfield Town Council, entitled "An Ordinance to Amend Chapter 17.1, Section 1 of the 'Revised Ordinances of the Town of Bloomfield, New Jersey, 1950'", on this the 10th day of October 1962.

The League of Women Voters is pleased to note that the Town Council has reconsidered its previous position and is actively engaged in the consideration of a Minimum Housing Code to be adopted as an ordinance of the Town of Bloomfield.

We are certain that the compelling factor for the adoption of a Minimum Housing Code is not only to make the town eligible for Federal assistance, as mentioned in the newspapers, but also to maintain and improve living conditions in our Town.

The League of Women Voters studied, in a year-long project, the needs of our community in this field and examined in depth, Model Codes and the Codes in Operation in Neighboring communities. Based on our knowledge of the subject, we feel that the proposed Code, a Model Code issued by the New Jersey State Department of Health, is an adequate code; However, we would like to see certain changes and we suggest the following:

The Housing Code Section 4.6 states that "every dwelling shall have water-heating facilities which are installed and maintained in good and safe working condition, connected with the hot water lines required under the provisions of subsection 4.5 of this Code, capable of delivering water at a minimum temperature of not less than 120 degrees Fahrenheit."

This is somewhat ambiguous. The facilities may be capable of delivering water of 120 degrees, but hot water may not necessarily be supplied. We would like to see the wording amplified to state that water of 130-140 degrees must be supplied between the hours of 6 a.m. to 12 midnight and facilities for such supply be installed and maintained. In our modern day, when cleanliness is so vital, 120 degree water is not adequate for dishwashing, clotheswashing, etc.

Sec. 12-14. This deals with supplying heat of 70 degrees between 6 a.m. and 11 p.m. We would like to see this raised to 72 degrees as being more realistic and comfortable, and changing the hours to read from 6 a.m. to 12 midnight with a drop of a few degrees for the remainder of the 24 hours. 72 degrees would provide for the 2-4 degree drop in temperature which must occur before a thermostatic control becomes activated.

We also feel that the Officer in charge of enforcing the proposed ordinance should be required to initiate action, based not only on complaints, or on occasional investigation, but also on a regular and periodic check if all dwellings in Bloomfield. This regularity to be based on a 5-year period or some other reasonable interval. This would serve to prevent decay from reaching extreme condition and would take the onus of complaining about a neighbor from the naturally reluctant neighbors.

Given the tool of an adequate Minimum Housing Code, the proper enforcement by the administrative authority could prevent blight in many areas of our town, conserve aging areas, and ensure proper maintenance of all existing as well as future dwelling and dwelling units.

Mr. Conte submitted the following petition signed by property owners on Sherman Court:

"This is to advise that we the undersigned property owners of Sherman Court are anxious to find out why Sherman Court can be made more nawrow in its width by Terlizzi Brothers Incorporated.

After being used by the public and residents of Sherman Court for 35 years or more. This is a town roadway and why is it not maintained as such?. Old concrete blocks and debris and large pieces of Telephone poles plus an old fire escape ladder are strewn along this property, also a garbage house facing our front porches. While we try to maintain a clean street.

A large tree was removed by the Town of Bloomfield Tree Dept. in October 1961 on the sight where this debris wall now exists. If this was the Town's property then. As your employees then stated why is it not now?.

We therefore as citizens and taxpayers of the Town of Bloomfield request appropriate action in the clearing up of this debris to the greater satisfaction of all concerned, and the restoration of the street to its original width and cleanliness.

Could you please help us with this situation and advise? "
